SUMMARY

I am a WordPress Developer (Divi, Elementor), skilled in technical and on-page SEO, responsive design, and website optimization to deliver high-performing digital solutions. I am also proficient in using Canva, Photoshop, CapCut, Google Apps, and project management tools such as Trello to support both creative and collaborative workflows.

WORK EXPERIENCE

WordPress Developer - SouthernPoolDesign

Jan 2025 - Jul 2026

- Designed and developed custom landing pages using Divi tailored to client objectives
- Improved on-page SEO through meta tags, keyword optimization, internal linking, schema markup, and site speed improvements.
- Implemented security best practices to protect WordPress sites from vulnerabilities and threats.
- Ensured responsive, mobile-friendly design and cross-browser compatibility for a seamless user experience.
- Improved Core Web Vitals, including CLS and LCP, across 143+ pages using PageSpeed Insights and CrUX Vis.
- Collaborated with clients to analyze requirements, propose solutions, and deliver projects within deadlines.

WordPress Developer - Tonmor

Dec 2025 - Jul 2026

- Rebuild the Tonmor website in WordPress using Divi.
- Developed 17 pages with custom CSS, JavaScript, and page layouts.
- Created responsive and interactive sections for desktop and mobile.
- Collaborated with the client on website updates, design changes, and content.
- Handled SEO, performance improvements, and website maintenance

Data Researcher - Entrata

February - May 2025

- Researched and verified contact details for 2,000+ U.S. companies to support real estate operations
